Currently, all AHLTA users have access to BHIE AHLTA data through the BHIE Data Viewer icon on Folder List.

Please note: All patients listed on these slides are test patients. No PHI or PII is exposed.

With BHIE AHLTA 3aU1, only those users with access to patient-specific clinical data will be able to access BHIE-AHLTA data. Those without access will no longer see the BHIE Data Viewer icon on their Folder List. Clinical data is defined as any information that falls under the Patient folder in the Folder List, excluding Demographics.

BHIE-AHLTA

The BHIE Data View module opens, displaying the BHIE-AHLTA splash screen. The BHIE Data Viewer module displays read-only data available from Veterans Health, SHARE Health and Theater Health. Notice that **Histories** and **Questionnaires** are grayed out and do not contain a hyperlink. Histories and Questionnaires are only supported one way, from the CDR to the VA; therefore, there are no Histories or Questionnaires to view in the BHIE-AHLTA Data Viewer.

Display includes data currently available from Veterans Health, SHARE Health, Theater Health

The Patient Summary screen displays the four most recent results, in reverse chronological order for each of the categories. Encounters and Clinical Notes are displayed for the past 12 months, while Outpatient Medications, Radiology Reports, Laboratory and Vitals are displayed for the past 18 months. Allergy and Problems are listed historically. Although vitals information is also displayed in the BHIE Data Viewer, the Patient Summary screen does not display vitals data. Click the **Vitals** link under Patient Data to view the vitals data. Select any of the items listed within a category to display more information about the selected item.

Clinical Notes

Note Title: PRIMARY CARE OUTPATIENT NOTE

Note Date: 08Mar07

Provider: NANCY A. LITCH, MS, RD

[Click here to view note details](#)Patient SummaryData Sources

Although the Clinical Note's default search criteria is limited to 12 months, users can modify the search.

1. Enter a new date in the Start Date field. Click the ellipsis button to access the calendar menu.
2. Enter a new date in the End Date field. The default End Date is the current date.
3. Click **Go**. The clinical notes matching the search criteria will be displayed.

The search criteria can be adjusted using the method above for the Clinical Notes, Encounters, Laboratory, Outpatient Medications, Radiology Reports and Vitals pages.

Display includes data currently available from Veterans Health, SHARE Health, Theater Health

Outpatient Medications

Fill Date	Drug	Refills Left	Ordering HCP	Qty	Status
26Dec06	ACCU-CHEK COMFORT CV (GLUCOSE) TEST STRIP	2	MONGE, ROSANA E	50	EXPIRED

The Outpatient Medications page displays the patient's active, inactive, discontinued, and expired outpatient medications information for the previous 18 months in reverse chronological order by Fill Date.

The Fill Date only displays the last fill date for a medication; historic fill dates are not displayed.

The Status column indicates whether the prescription is Active (Refill, Fill, Warning, Active, Hold, and Partial) or Inactive (Renewed, Expired, or Discontinued).

Display includes data currently available from Veterans Health, SHARE Health, Theater Health
