PERIODIC HEALTH ASSESSMENT (PHA)

Background

Annual Periodic Health Assessment includes record review/assessment/counseling of avoidable health risk factors, clinical preventive services, deployment health history, and individual medical readiness assessment IAW MANMED.

Allergies (Medication and other): See Block 1 on DD2766

Is in possession of Medical Alert Pendant, if indicated in possession as indicated.

Chronic Illnesses: See Block 2 on DD2766

Medications (Rx/OTC/herbals/etc): See Block 3 on DD 2766

Past Medical/Surgical History

Family History

Cancer

Diabetes

Heart Disease

Mental Illness

Other Family History: See Block 6 on DD2766

Occupational History: See Block 8 on DD2766

(occupational history)

Deployment Health: See Block 11 on DD2766

Deployed since previous PHA

Post-Deployment Health Assessment completed

Post-Deployment Health Reassessment completed

Post-Deployment labs/tests completed

Deployment/Shipboard limiting conditions identified

? Deployment Health Web-Site

? EDHA Global: Electronic Deployment Health Assessment

Features

- AIM Form design
- Improved output better reflects standard form
- Web links to Deployment Health, EDHA, and Framingham Risk Factor Calculation
- Built in list of diagnostic and procedure codes

General Information

- New Name: PHA--AIM--NAV--KMN--1207
- Located in the Enterprise PHA folder
- All previous Navy versions will be removed from Enterprise Folders (you should delete previous used PHA templates from your favorites folder)
- Toggle Note View to view output, toggle back to Form View to resume input.

General Information (cont)

- PHA process should include updating the problem list, medications list, and allergies in AHLTA
- How-to's provided:
<http://www.usafp.org/AHLTA-Information-FAQs.html>
