
AHLTA

Patient Preventive Reports

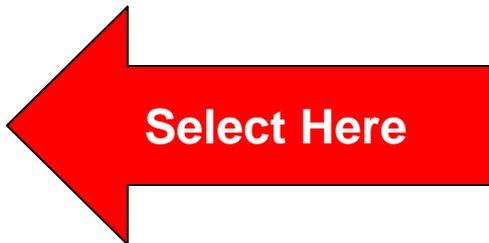

- Providers/Nurses/HM's can run preventive reports on PCM patient panels
 - Look up patients who are past due for:
 - Immunizations
 - Cholesterol Screening
 - Breast Cancer Screening
 - Cervical Cancer Screening
 - Tobacco Screening
 - Others
 - You can print patient overdue lists (*remember this is PHI*)
 - Act or delegate patient contact via telephone or CHCS reminder letters or in person.
 - Proactive health reminders add value to “Family Centered” care
 - Follow instructions on next few slides
-

Here You Go!

Remember to Verify the Accuracy of Information (Patient List)

- No system is perfect
 - Be sensitive to these possible data integrity issues
 - Pt expired: surviving spouse has not notified PSD to update DEERS
 - Pt moved: has not updated enrollment to new TRICARE region
 - Pt > 65: Medicare eligible and receives most of primary care in town (may have already had the procedure)
 - Pt/family member has Other Health Insurance: had procedure/treatment through “other” health plan
 - Pt deployed: received care at platform unit
 - Pt had treatment/procedure in network: Up to 9 month delay in billing/claims cycle reporting
 - Pt had treatment/procedure in network: Network information systems DO NOT communicate with AHLTA
-
